

24 CHALLENGE

The page features a decorative design with several orange dashed lines that curve across the top and bottom. Three dark blue airplane icons are positioned at various points along these lines: one near the top center, one near the top right, and one near the bottom left.

24 Challenge was founded in 2006 by a group of experts in the transport sector - trained staff at national and international level. Over the years we have won the trust of our customers and gained the one of many others.

Our goal is to have satisfied and loyal customers, to build with them and customized solutions for enabling a more streamlined workflow and stress free.

Every year we increase the range of services working in the field of clinical trials, fashion and time critical shipments. We guarantee quality, courtesy, availability and offer different solutions. The keys to success for 24 Challenge are: a good relationship with the customer, transparency, information, understanding the specific needs of each customer. We are active in the management of bio-medical and bio-pharmaceutical sectors in which the temperature content is essential in the clinical trials. We deal with urgent deliveries in the fashion, media and high-tech sectors, with no limit in terms of size, weight and value. Our collaboration with a global network of agents specialized allows us to be proactive, organized and have an effective follow-up on each import, export and shipping nationally and internationally.

Contact us; we will listen to your requests and offer, in short time, several solutions tailored for you.

MEDICAL

We are involved in many clinical trials (Phase I, Phase II, Phase III and IV), in collaboration with the Italian and international sponsors, to which we have provided a reliable cooperation. We have a long experience acquired in the organization of multicentre clinical trials in Italy, Europe, Eastern Europe and North America.

We provide all types of services to satisfy any request, such as: shipments at controlled temperature (-80 ° C, -20 ° C, 0-4 ° C, room temperature), the choice of appropriate packaging to ensure control product temperature, temperature recording (data logger), the preparation of the shipment (import / export) and related documents. We follow the products all over the world and we make sure they are sent and delivered in a timely and secure manner.

We believe that close cooperation is crucial to the success of the project. On this ground we develop customized offers, following requests and suggestions to build together with our customers the best platform and provide safe, cost-effective, timely solutions and useful to meet the demands of CRO and Sponsor, in compliance with all regulations and safety guidelines.

24 CHALLENGE will guide you step by step.
